

G FORCE TUFF HANDLER

PRO CUT 5

Code: GMT151

**NEVER BEFORE SEEN IMPACT PROTECTION
THE GREATER THE IMPACT, THE GREATER THE PROTECTION**

Not just another glove!

The all-new Tuff Handler from Maxisafe features a PATENTED HIGH PERFORMANCE IMPACT TECHNOLOGY never seen before!

This unique technology provides both enhanced protection and a versatile, flexible material for impact protection. During normal wear the material allows for unhindered movement and dexterity. When a shock is applied the impact zones of the glove instantly creates a super tough protective barrier to absorb and disperse the impact. It then immediately reverts to its former flexible state.

THE GREATER THE FORCE OF THE IMPACT, THE MORE THE MOLECULES LOCK TOGETHER AND THE GREATER THE PROTECTION!

Level 5 Cut Resistance ❖ **Exceptional Fit & Comfort** ❖ **Amazing Durability**

there's safe and there's Maxisafe.

HOW THE MAXISAFE HIGH IMPACT TECHNOLOGY WORKS

This unique technology is based on the innovation of capturing the benefits of non-Newtonian shear thickening material in polymers that can then be engineered for impact protection solutions.

In their raw state, this unique material flows freely when moved slowly, but on shock, lock together to absorb and disperse energy, before instantly returning to their flexible state.

Features and Benefits

- > Level 5 Cut Resistance
- > Exceptional fit and comfort levels
- > Amazing durability
- > Premium Goatskin leather reinforced palm and fingers
- > Re-inforced padded palm and fingers
- > Sandy PVC thumb crotch reinforcement
- > Micro terry-cotton brow and sweat band on thumb
- > Sizes Small to XXLarge

Applications

Oil and Gas Industries
Mining
Construction
Demolition / Recycling
Steel Fabrication
Landscaping
Drilling

Code: GMT151
